

**POSS** <sup>©</sup> | a modular  
furniture

# Let's start

POSSI is a modular furniture which functions as a kitchen. The core of POSSI is a flexible framework designed to enable the individual to form variable arrangements by easy assemblage.

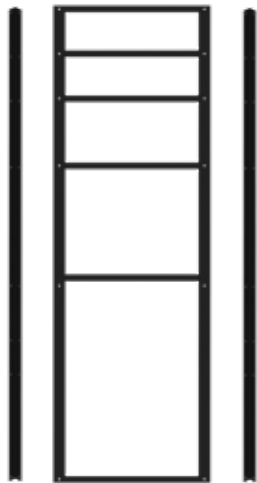

POSSI's modularity allows for the system to be rearranged and upgraded with new features and technology anytime. Standard production methods and materials allow for simple repair locally wherever.

Simple and solid joints allow for the system to be easily taken apart, moved and rebuilt into initial or new arrangements. This organic structure makes a kitchen with long longevity. POSSI is malleable, made to fit your curves and your needs. Please play.

system

# modularity

POSSI's modularity allows for the system to be rearranged and upgraded with new features and technology anytime. It allows you to grow with your kitchen. You can start with a small or medium size and grow your POSSI over time into a large kitchen just according to your needs.

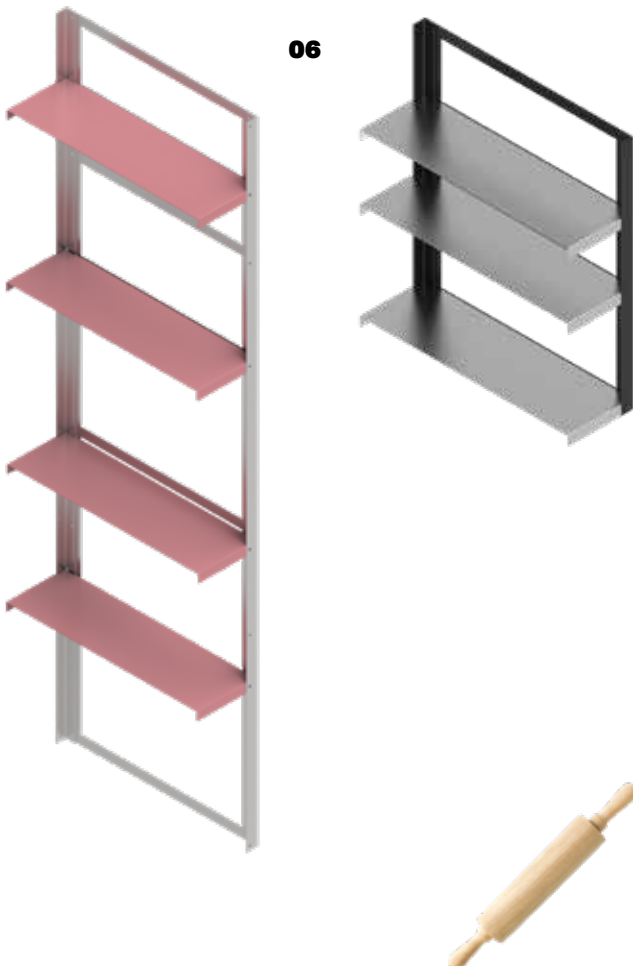

For an overview of all the modules and their available colours go to the components page. The collections propose pre-assumptions of configurations. You can always use them as a starter to configure your personal POSSI menu: reduce or add the juice out of it.

**a kitchen to hold on to**

# How it works

- 1 Get inspired and pre-configure your own POSSI.
- 2 Contact us with your ideas, measurements of your space and we jump on a call.
- 3 We will plan your POSSI for a small planning fee of 675DKK/90€ which disappears if you order a POSSI.
- 4 Adjust and confirm your planning.
- 5 Get your POSSI within 8-10 weeks after your order confirmation.

planning

Meanwhile check our online shop for inspiration or for a POSSI wall shelf. [possi.kitchen/shop](https://possi.kitchen/shop)

**Configure your POSSI**

# 1 Configurations

**How do you want your POSSI?**

**a) Wall b) Island c) Shelf d) Wall + Island**

# 2 Components

**Have a look at the components page and choose all modules you need. Visit our collection page or instagram for inspirations.**

# 3 Color

**What color combination suits you best? Decide on a color for each module.**

## **3.1 cabinets**

**Volcanic Black**  
silk-matte

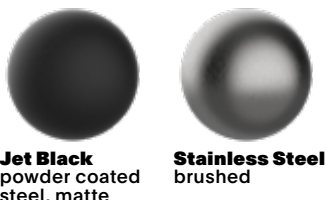

**Chalk White**  
silk-matte

**Horizon Blue**  
silk-matte

**Distant Blue**  
silk-matte

**Black Red**  
silk-matte

## **3.2 frame units**

**Jet Black**  
powder coated  
steel, matte

**Stainless Steel**  
brushed

## **3.3 shelves**

**Bright Orange**  
powder coated  
steel, gloss

**Pink**  
powder coated  
steel, gloss

**Stainless Steel**  
brushed

**Bright Green**  
powder coated  
steel, gloss

**Black Red**  
powder coated  
steel, gloss

# 4 Worktop

**Our standard worktops come in the same color and finish as our cabinets. They are fairly heat-, water- and scratch resistant. The difference is only technical, but not visible.**

**Do you want to choose a highly heat- and scratch-resistant surface for your worktop?**

**If yes, these are available in black and white, for small additional cost. We work with mineral composite worktops aswell. Contact us for more info.**

# 5 Appliances

**Either you already have existing appliances or you want to purchase new ones.**

**Let us know, so we can make sure they are suitable for our system.**

**All standard appliances are possible.**

# 6 Send us your personal POSSI configuration.

**Ideally with measurements of your space or floor plan. We are happy to advise you in a personal call.**
